

Year 4 Parent Planner - Summer 2025 - What food choices could we make?

AREAS OF LEARNING

As **Readers** we will explore a range of text types, developing a deeper understanding and learning skills needed to deduce information using clues within the text. We will also make justified predictions and develop our questioning skills. Our class text for Term 5 is 'Charlotte's Web' by E.B. White.

As **Writers** we will identify key features of text types and apply them within our own writing. The key text types that we will focus on include information texts and persuasive writing.

As **Mathematicians** we will finish our topic on coordinates. We will dive deep into fractions, looking at the value of fractions and comparing, as well as adding and subtracting fractions up to 1.

As **Scientists** we will continue to develop out science skills through investigations. We will study food chains, the digestive system, and types of teeth.

As **Artists** we will be making advertisements for our bean burgers and using them in our pop-up.

As **Engineers** we will discuss seasonality of food and what food choices we can make based on our locality. This will inform our design of our healthy alternative bean burgers, and we will within this practice our cookery skills.

As **Musicians** we will learn how to play the recorder. We will also learn how to follow a beat, read musical symbols and compose our own body percussion pieces.

As **Sportspeople** we will develop our knowledge and skills in Athletics ready for Sports Day! We will also develop our cricket skills.

As **Computer Scientists** we will be focussing on photo editing, it's uses and the consequences of fake images.

The key question we will investigate in RE is: Why do Christians believe they are 'people on a mission'? as we focus on Christianity.
