

Key Vocabulary

amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
birds	All birds have a beak, two legs, feathers and wings.
fish	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
reptiles	All reptiles breathe air. They have scales on their skin.
carnivore	Animals that mostly eat other animals (meat) are carnivores.
herbivores	Animals that only eat plants are herbivores.
omnivores	Animals that eat both plants and other animals are omnivores.

Facts for Life

1. Know that animals can be grouped using different characteristics and in different ways e.g. wild, pets, farm; omnivores, carnivores, herbivores; fish, mammals etc.
2. Know that scientifically we group animals into fish, reptiles, mammals, birds and amphibians.
3. Know why animals live in lots of different habitats and some of the animals in these habitats.

Mammals

human

mouse

dog

cow

Birds

penguin

chicken

flamingo

robin

Fish

goldfish

tuna

shark

eel

Reptiles

snake

tortoise

lizard

alligator

Amphibians

frog

toad

newt

salamander
