- f. To become more sensitive to the wonders and mysteries of creation.

4. Objectives

- a. All members of the school community will establish a sense of belonging i.e. we are **all God's Children**.
- b. To contribute to the religious education and spiritual development of all pupils.
- c. The children will experience different forms of Christian worship by participation and involvement.
- d. Each activity should be educational as well as spiritual.
- e. Children will experience an interesting and varied programme of Collective Worship.
- f. Children will be encouraged to take part in Christian practices e.g. responses, introduction to Holy Communion at St. Andrew's Church, prayer, reflection etc.

5. Implementation/approach

Our Collective Worship will:

- a. Provide opportunities for thought, reflection and silence.
- b. Create and develop an environment conducive to worship and reflection.

The Spring Term service will be a Holy Communion Service celebrating Easter. All the children will receive a blessing at the altar and people who receive communion in their own church are welcomed to take communion.

There may also be a Summer Term service, which will be a Holy Communion Service. All the children will receive a blessing at the altar and people who receive communion in their own church are welcomed to take communion.

In the final term there will be a church service for the children in Year 6 who will be leaving the school. Their families are welcome to attend.

In planning our Collective Worship Themes, we have considered the two main dimensions of spiritual thought.

- A) Implicit - concerned with children’s personal feelings, relationships, experiences, questions and responses to life, and
- B) Explicit - a body of knowledge, the ways in which religious communities express their belief, behaviour and values.

These two dimensions are to link closely with the religious education policy of the school and the curriculum links within each class.

The main themes of Collective Worship contain both implicit and explicit material. A theme can be developed or extended within the individual classroom.

These main themes are revisited annually using different material. Favourite stories may be revisited on a regular basis.

The RE and Collective Worship co-ordinator will plan the themes for each term, and suggest activities for class worship, thus ensuring continuity across the school.

The themes used are planned on a three year cycle to ensure both variety and development deeper understanding. The current cycle of planning is attached to this policy.

It is to be noted that our Collective Worship will allow for the unexpected, ie local/world events when the occasion arises.
