

# SNAG

S.N.A.G, which stands for School Nutrition Action Group, is a group of a pupils and staff that meet termly to discuss all aspects of food and growing.

SNAG have been able to action some of the classes new ideas, one of which was a breakfast brunch. The participants of SNAG agreed to the idea and thought it was a lovely idea to share a Breakfast Brunch together. We can finally enjoy this on **Wednesday 30<sup>th</sup> June** so that we can share the deliciousness together. SNAG also had the pleasure of adding two new puddings to the menu; Banoffee Pie and Eton Mess. These puddings were both delicious and we hope they will be on the menu soon.

A few weeks ago, SNAG decided to run a Petunia growing contest because we couldn't have the school Summer Fayre which we usually have every year. By now with proper care, most of the Petunias should have germinated and a due date to bring them back to school for judging will be announced eventually. Hopefully there will be many petunias to judge.

Please can we encourage parents not to put chocolate / sweets in children's lunch boxes. We want to try to encourage healthy eating and next term we shall be back issuing stickers to children with consistently healthiest lunchboxes.
